TerrassenFix®
Countersink BS

SIHGA® Feature	YOUR Benefit
pre-drilling and counter sinking in one step	saves at least 50 % working time
developed, patented and made in Austria	local quality, experience from more than 14 years of terrace construction included
drill and counter sinker are made from hardened stainless steel	prevents corrosion/rust from external sources on the terrace, also in the case of any abrasion of the drill
integrated depth stop	gives a uniform finish to the sinking, prevents sink holes and thus damp patches
for SIHGA® stainless steel screws L-GoFix® MS, L-BohrFix® MB (A4) and Alu-BohrFix®	the precise match for these screws creates a uniform surface
stop ribs on the end	prevent ugly contact traces on the terrace surface
with a second change ring and re-closable system packaging	extends the life of the counter sinker, protects against damage
drill depth including sinker 25 mm	the geometry optimally transports the drill dust out

SIHGA® minimontagepack		TerrassenFix® Countersink	Drill Hole Diameter	Drill Depth incl. sink
Art. No.	PU	Type	[mm]	
35052	1	**BS 5**	5,0	25
35062	1	**BS 6**	6,0	25

BS 5 **BS 6**

SIHGA® TIP:

Observe drilling table (page 65), we recommend using the TerrassenFix® Template TFS.
